seh325@cornell.edu

Economist with 4+ years experience in data-focused economics, and applied econometrics. Expertise in building data from the real-world, and methods to causally analyse the underlying economic phenomena that generate these data. Looking to bring the perspective and methods from labour economics, applied econometrics, and causal inference to an industry internship.

Education

Last updated: 24 October 2022

Ph.D. Economics, Cornell University

expected 2025

- In-progress research studying the determinants of faculty salaries and hires, statistical methods to causally measure returns to education in multiple dimensions.
- Full Academic C.V. available [here](#).

B.A. Economics + minor Mathematics, Pomona College

2018

Experience

Research Assistant, Cornell University, NY State USA

2020–present

- ok

Data Science Intern, The Behaviouralist, London UK

2020

- ok

Research Associate, Harvard Business School, Boston USA

2018–2020

- ok

Technical Skills

- Causal inference:
- Programming, proficient: Python, R for statistical and network analysis + visualization, data structures, and web-scraping.
- Programming, working knowledge: Julia, SQL, Bash, Git for version-control.

Other

Citizenship: United Kingdom

Personal Interests: Road cycling and racing, open source software
